VIPER® CS II

CRAWL SPACE VAPOR BARRIERS

Viper CS II is a white, co-extruded virgin polyethylene vapor barrier designed specifically for controlling moisture and soil gas migration in crawl space applications.

Its bright white color gives any crawl space a fresh, clean look while combating the harmful effects of radon, moisture, mold and mildew.

Viper CS II is manufactured using a proprietary resin formulation that yields excellent performance properties at an economical price.

Engineered for long-term performance, Viper CS II comes with a lifetime material warranty, ensuring peace of mind for the life of the structure.

WARRANTY LIFETIME

INTERTEK SUSTAINABILITY ACCREDITED
